■ 8 DP BLOCK

If a card is any taller than **96 DP** we have to push a bit of it below the fold.

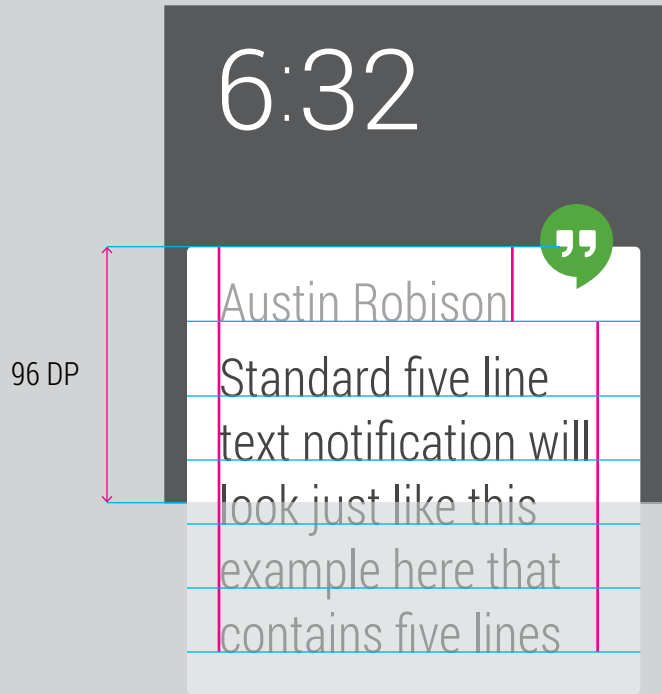

Every line of text adds **24 DP** to the height of the card. Oh man that's so cool!

■ 8 DP BLOCK

9 lines of text, or 240 DP is safe. This is the max size before we need to truncate.

Taller than **240 DP** or 9 lines of text? We fade you out at the bottom and truncate you.

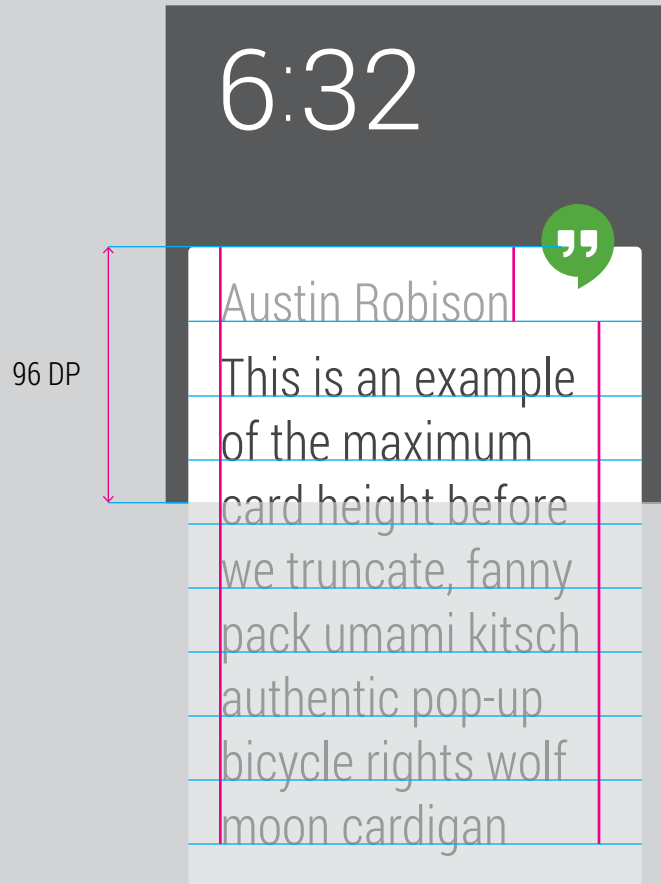

6:32

Austin Robison

Standard five line text notification will look just like this example here that contains five lines

96 DP

This card shows a notification with a dark grey header containing the time '6:32'. Below the header is a white card with a green speech bubble icon in the top right corner. The card contains five lines of text: 'Austin Robison' followed by 'Standard five line text notification will look just like this example here that contains five lines'. A vertical dimension line on the left indicates the card's height is 96 DP.

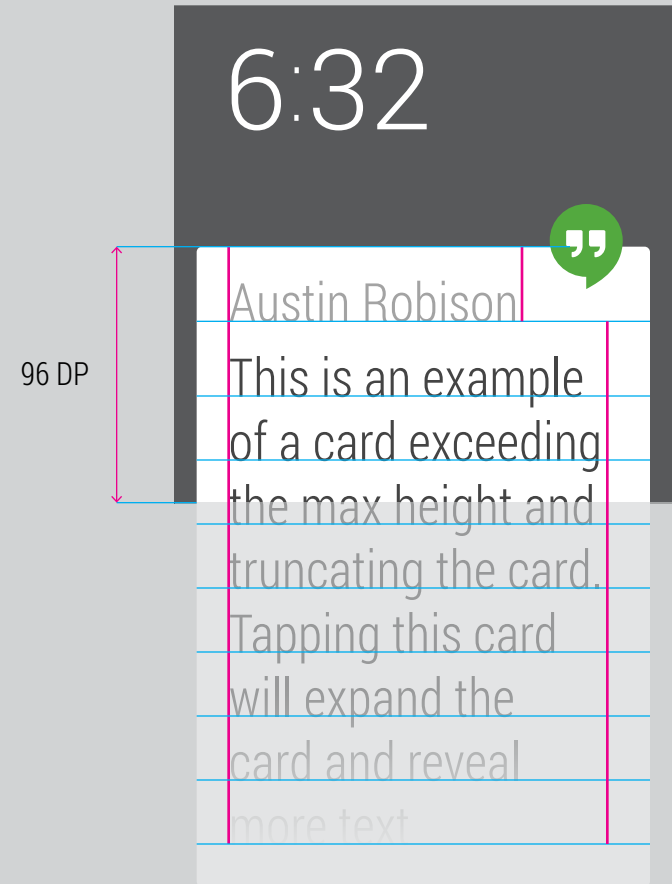

6:32

Austin Robison

This is an example of the maximum card height before we truncate, fanny pack umami kitsch authentic pop-up bicycle rights wolf moon cardigan

96 DP

This card is taller than the previous one, containing nine lines of text. The text is truncated at the bottom. A vertical dimension line on the left indicates the card's height is 96 DP.

6:32

Austin Robison

This is an example of a card exceeding the max height and truncating the card. Tapping this card will expand the card and reveal more text

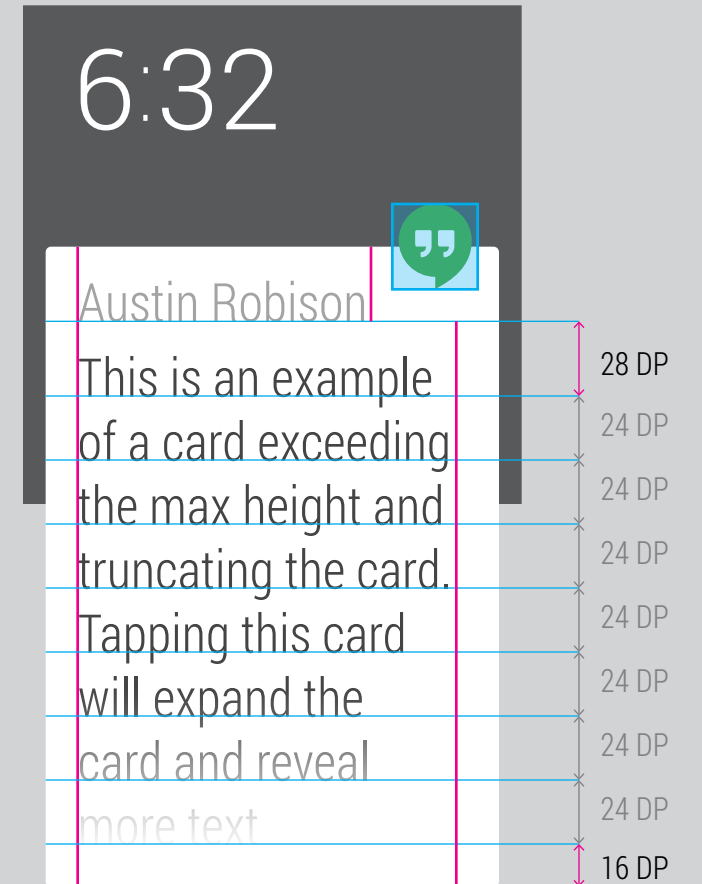

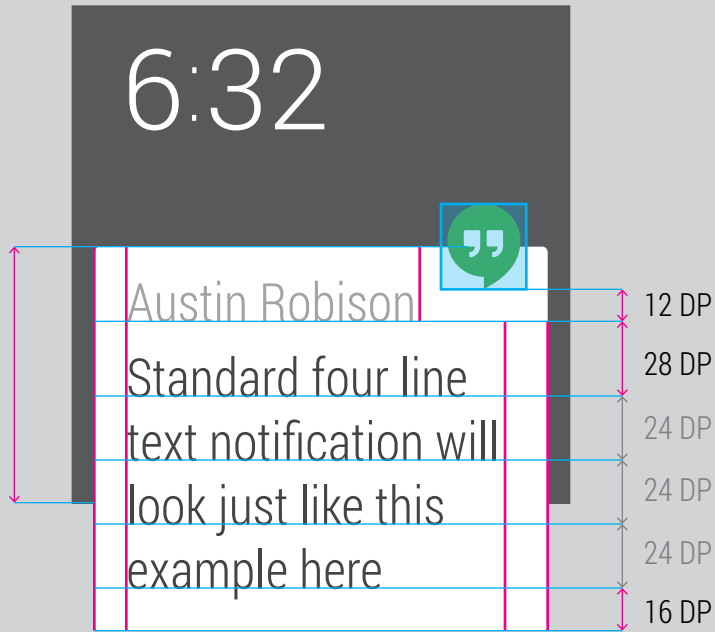

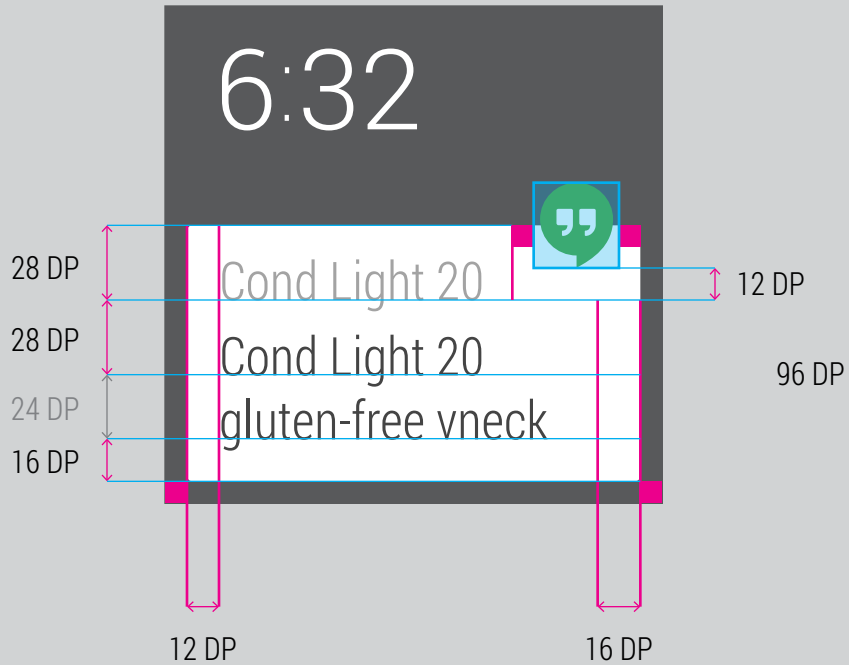

96 DP

This card is the tallest, containing more than nine lines of text. The bottom portion of the card is faded out, indicating truncation. A vertical dimension line on the left indicates the card's height is 96 DP.
