

Hello, Roboto

A NEW TYPE FAMILY FOR HUMANS & ANDROIDS

Roboto is an open type
family designed for high
resolution mobile devices

ROBOTO HAS A DUAL NATURE. It has a mechanical skeleton and the forms are largely geometric. At the same time, the font features friendly and open curves. While some grotesks distort their letterforms to force a rigid rhythm, Roboto doesn't compromise, allowing letters to be settle in to their natural width. This makes for a more natural reading rhythm more commonly found in humanist sans serifs.

A ROBOT IS A mechanical or virtual intelligent agent that can perform tasks automatically or with guidance, typically by remote control. In practice a robot is usually an electro-mechanical machine that is guided by computer and electronic programming. Robots can be autonomous, semi-autonomous or remotely controlled. By mimicking a lifelike appearance or automating movements, a robot may convey a sense that it
