Housing Specialist Louie presented the staff report. She noted that the proposed CDBG-CV substantial amendment would fund a new “parklet” concept project for La Habra Boulevard; which is a sidewalk extension or “pop-out” installed on parking lanes within commercial corridors to provide social distancing space and amenities for people using the street and businesses in the area. Community and Economic Development Director Ho explained that providing the parklets were part of the economic recovery of the downtown due to the Coronavirus (COVID-19) and in support of local businesses. He noted that more funding had not been applied to Small Business Support and Technical Assistance because there were more robust programs through the federal government that offered more money.

City Council discussion included: tradeoff for parklet installation; confirmation that traffic barriers would be installed for public safety from oncoming vehicles; verification of the time frame to install parklets of six to twelve months; clarification of CDBG-CV grant applications under review, and the possible number of grants remaining; potential additional funding to businesses and restaurants; and confirmation that the parklet design/build contract would come before City Council for approval.
